Montague Tactical Military Mountain Bikes are full size mountain bikes (MB) that provide an inexpensive alternative to walking; have enhanced off-body load bearing capabilities; a high level of manoeuvrability and can compact to a portable size in less than 30 seconds. Montague Tactical Military MB are four to six times as fast as walking, easy to repair and consume no fuel. Currently, they are deployed in the US, Middle East and Europe and are ideal for patrolling, security, rapid response and jumping.
