

## **Montague Launches All-Terrain Folding Bike for RV Enthusiasts New Paratrooper Provides Full-Sized Ride with a Compact Fold for Easy Storage**

CAMBRIDGE, MA – May 2, 2016 – [Montague Bikes](#), the leader in full-size folding bikes, has launched the all-new Paratrooper, a bicycle designed to deliver top-rated performance and portability for RV enthusiasts looking to continue their adventure after they've set up camp. Its full-size wheels and folding design offer the perfect solution to those looking for a versatile ride for trails and paths that can easily fit in an RV's cargo area and still have plenty of room for gear.

The Paratrooper is a rugged mountain bike with a rich military history. Originally developed under a grant from DARPA to allow airborne soldiers to drop out of airplanes and into combat with a bike, the Paratrooper delivers true off-road performance yet is light and versatile enough to be used for any type of riding. Featuring a Suntour suspension fork and standard 26" wheels that can roll over obstacles with ease, the bike is especially suited for rural areas, campsites, and parks where most RV enthusiasts often visit. The bike's mechanical disc brakes deliver superior stopping ability and its industry standard components make repairs possible anywhere in the world.

With a 24-speed drivetrain, the Paratrooper offers a wide range of gears that is perfect for hilly areas and long rides in the country. When folded, the bike compacts to just 36 inches wide, 28 inches high and 12 inches deep, ideal for tight storage spaces. It also weighs only 32 lbs, making it very light and portable.

Like all Montague bikes, the Paratrooper includes the patented DirectConnect™ folding system that provides increased frame stiffness for superior ride quality, and can be folded and unfolded in less than 20 seconds. It also comes equipped with Montague's patented Eurobike award winning RackStand which serves as a standard cargo rack and mud guard when the bike is in use, converts into a kickstand when parked, and allows the bike to stand upright when folded. The Paratrooper retails for \$899.00.

"For many, the allure of an RV is the adventure of the open road and the ability to get closer to nature. Having a Paratrooper on board offers them the ability to go farther and explore even more." said Ryan Walas, Director of Marketing for Montague Bikes. "Able to deliver a full-sized riding experience with a compact folding design, the Paratrooper delivers the best of both worlds and you won't compromise on what you can bring on your next trip."

The Paratrooper is part of Montague's 11 all-new bike models for 2016 that feature the same folding frame design. The 2016 line-up includes six road and five mountain bikes ranging in price from \$639.95 to \$2,449.00.
