## The Sounds of SUMMER

**CIARA: FANTASY RIDE**

Ciara: Having a summer dance party? *Fantasy Ride* delivers a mix of futuristic R&B, chocked full of duets with Ludacris, Missy Elliott and Justin Timberlake (the best single on the album). Ciara certainly does what she does best on this album—offer dance beat up tempo tracks for the pg rated dance class girls and boys.

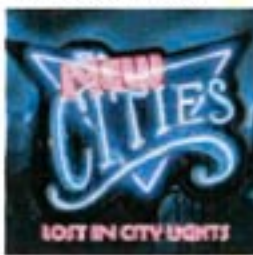

**MAT KERNEY: CITY OF BLACK AND WHITE**

A voice that listens to Dave Matthews mixed with Dan Layus (frontman of Augustana), Kerney's *Black and White* is packed with acoustics and lyric heavy vocals, great for a lazy Summer drive down the Pacific highway.

**THE NEW CITIES: LOST IN CITY LIGHTS**

Eighties synth pop dance mixed with light punk rock is rampant on this eleven track album. *Lost in City Lights* is pure bubbly positive energy for a prom party or a CW soundtrack.
