▼ **Montague Boston**

Witness the world's first 700c-wheeled, single-speed folding bike. If you live in a flat city and don't mind arriving with some sweat on your brow, then you'll also appreciate the Boston for its sturdiness and simplicity. If you live in San Francisco, commute in a suit, or need a ride that fits under your desk when folded, keep looking. [\$769; [montaguebikes.com](http://montaguebikes.com)]
