FLAGSHIPS: GEAR

EDITED BY DAVID SCHMIDT

« LOCKED AND LOADED

One of the great pleasures of voyaging is exploring ashore. An onboard bicycle can be a great convenience, but full-sized bikes are hard to stow. Folding bikes with small wheels can be unstable and tiring to ride. SwissBike's XO boasts 26-inch wheels, an aluminum frame, a front shock absorber, high-quality components, and an easy-to-use folding mechanism. It handles both trails and streets with ease. Best yet, it folds down small, and an easy-to-carry accessory bag makes stowing it a breeze. \$1,995. SwissBike, 800-736-5348, www.swissbike.com
